

Beksulton Abdurakhmanov

Senior Frontend Engineer

Tashkent, Uzbekistan | beksulton.abdurakhmanov@example.com | github.com/abdurakhmanov0101

PROFESSIONAL SUMMARY

Results-driven Senior Frontend Engineer with over 3 years of deep expertise in React.js, Next.js, and TypeScript ecosystem. Proven track record of architecting highly scalable, state-of-the-art web applications from zero to production. Passionate about writing clean, maintainable code, optimizing Core Web Vitals, and implementing premium UI/UX designs with fluid animations. Strong leadership skills with experience in mentoring teams, establishing rigorous code quality standards, and driving agile methodologies.

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer

| Brain IT Company | 2025 - Present

Leading the frontend engineering team to deliver robust, enterprise-grade web solutions.

- Architected and implemented scalable, component-driven UI systems using React, TypeScript, and Next.js, accelerating feature delivery by 35%.
- Optimized application performance and Core Web Vitals, achieving a 40% reduction in initial load times through advanced code-splitting and lazy loading.
- Mentored a team of junior and mid-level developers, conducting comprehensive code reviews and enforcing CI/CD best practices.
- Collaborated closely with product managers and UI/UX designers to translate complex requirements into intuitive, accessible user interfaces.

React Frontend Developer

| Linko.uz | 2024 - 2025

Engineered high-traffic e-commerce platforms and complex interactive dashboards.

- Developed and maintained large-scale state management architectures using Redux Toolkit and React Query for real-time data synchronization.
- Integrated secure third-party RESTful APIs, payment gateways, and authentication protocols (OAuth, JWT).
- Implemented highly responsive, mobile-first layouts using Tailwind CSS, ensuring pixel-perfect cross-browser compatibility.

Web Developer

| Amusot.uz | 2022 - 2024

Spearheaded frontend migration and built dynamic marketing landing pages.

- Successfully migrated legacy monolithic codebases to modern React.js architectures, enhancing maintainability and reducing technical debt.
- Engineered fluid, state-of-the-art micro-animations using Framer Motion and GSAP to elevate brand identity and user engagement.
- Streamlined build configurations and development workflows using Vite and Webpack, cutting deployment times in half.

TECHNICAL COMPETENCIES

Frontend Architecture: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

State Management & APIs: Redux Toolkit, React Query, Context API, REST APIs, GraphQL, Axios

UI/UX & Animation: Tailwind CSS, Sass/SCSS, Framer Motion, GSAP, Radix UI, Figma

Build Tools & DevOps: Vite, Webpack, Git, GitHub Actions, CI/CD, npm/Yarn, Chrome DevTools

Core Principles: Responsive Design, Web Performance Optimization, SEO, Accessibility (a11y), Clean Code

SELECTED PROJECTS

- **Pharmacy Management System:** A robust dashboard for inventory and sales tracking. Built with React and Redux.
- **Biology & Medical Portals:** Educational web platforms featuring interactive UI elements and complex state logic.
- **Premium Developer Portfolio:** An ultra-modern, performant personal portfolio showcasing glassmorphism and lazy loading.

EDUCATION & CERTIFICATIONS

Bachelor of Software Engineering	2020 - 2024
Tashkent University of Information Technologies (TUIT)	
Focus: Algorithms, Data Structures, Software Architecture	
Modern Frontend Development Course	2023
IT Academy
